

# PUNIT JADHAV

Full Stack Developer | React | Node.js | Python | Scalable Applications | DSA

@ jadhavpunit30@gmail.com

Mumbai, Maharashtra, India

punit-jadhav-001579236

Punitjadhav07

## EXPERIENCE

### Java Fullstack Training

TechPathShaala

2025

- Comprehensive training in Java fullstack development
- Core areas: Java, Spring Boot, backend development, web systems

## PROJECTS

### Expense Tracker

Web Application

- Designed a dynamic expense management app with add/edit/delete and category sorting
- Implemented modal-based editing with reusable component structure
- Optimized UI/UX, state updates, and overall performance
- GitHub:** <https://github.com/Punitjadhav07/Expense-Tracker.git>

### E-Commerce Website

Full Stack Shopping Platform

- Built a responsive ecommerce frontend using React and Redux
- Features: product listings, cart, filters, product detail pages, checkout
- Backend APIs for user auth + product management, deployed on Netlify
- Live Demo:** <https://shoppingwebsite01.netlify.app/>

### Task Management System

Fullstack Web Application

- Developed a task manager with RESTful APIs and persistent storage
- Tech stack: React frontend | Node.js + Express backend | SQL database
- Features: task creation, assignment, tracking, status updates
- GitHub:** [https://github.com/Punitjadhav07/Task\\_Management](https://github.com/Punitjadhav07/Task_Management)

## CERTIFICATIONS

### CS50's Introduction to Computer Science

Harvard University

Oct 2024

- Learned core CS fundamentals, algorithms, data structures, and software engineering

### Java Data Structures & Algorithms + LeetCode

Udemy

Sep 2024

- In-depth DSA concepts with practical LeetCode problem-solving
- 

## Certificate Course in Logic Building in C#

### C-DAC ACTS

⌚ Aug 2025

📍 SM VITA, Mumbai

- 60-hour part-time certificate course completed with Grade C+
  - Modules: MS .NET, C#, OOP Concepts, Project
  - Authorized Training Centre of C-DAC ACTS Pune
- 

## Spring Boot 3, Spring 6 & Hibernate for Beginners

### Udemy

⌚ Aug 2024

- Learned enterprise Java development, REST API design, ORM + Hibernate

## TECHNICAL SKILLS

---

**Programming Languages:** JavaScript, Python, Java, C, TypeScript

**Web Technologies:** React, Redux, Node.js, Express.js, HTML5, CSS3, REST APIs

**Databases:** MongoDB, SQL, JDBC

**Frameworks & Tools:** Spring Boot, Hibernate, Git, GitHub, Netlify

**Concepts:** OOP, Data Structures, Algorithms, Full Stack Development

## EDUCATION

---

### B.E. Information Technology

#### Vidyalankar Institute of Technology

⌚ Aug 2023 – Oct 2027

📍 Mumbai, India

- Currently 3rd Year, 5th Semester
- Cumulative GPA: 7.62
- Active participation in sports and college technical events
- Relevant Coursework: Data Structures, Algorithms, DBMS, OS, Web Development
